Delaware
DEPARTMENT OF TRANSPORTATION
MAJOR FUNCTIONS

- Carries out programs to improve, maintain, and operate transportation facilities of the State.

- Administers the operations of the airports program of the State government by equipping, regulating and protecting the state system of public airports and related facilities. Plans, designs, develops, acquires, and constructs new and expanded airports and facilities as well as reconstructs existing airports and facilities.

- Plans, designs, and supervises the construction and maintenance of the State Highway System. Alters, modifies, or revises such highway system as may be required.

- Administers and maintains the operations of the harbors program of the State government by equipping, regulating, and protecting the State system of harbors and related facilities. Plans, develops, acquires, and constructs new and expanding harbors and facilities as well as maintaining and reconstructing existing harbors and facilities.

- Provides for the determination of statewide transportation needs, the continuous survey and inventory of planned resources, and the creation of statewide, inter and multi modal transportation systems network plans.

- Encourages, fosters and assists in the development of aeronautical, water, and land transportation in the State; and provides for the protection and promotion of safety in aeronautics and water transportation.

- Plans, reviews, and implements a comprehensive uniform state highway safety program to comply with applicable federal and state laws.

- Works with the Commission on Transportation which acts in an advisory capacity to the director of transportation; serves on the State Highway Safety Council which advises the governor on highway safety; and, cooperates with the Medical Advisory Board which advises the examiner of drivers on medical criteria and vision standards for motor vehicle drivers.
MAJOR PROGRAM AREAS
